Dear Mr. Weissman,

Re: (ISC)² Official Training Provider (OTP) – SEE SECURITY TECHNOLOGIES

Please accept this letter as confirmation of the status of **SEE SECURITY TECHNOLOGIES** being an Official Training Provider (OTP) for (ISC)² in Israel. (ISC)² and See Security Technologies have an established partnership to enable the delivery of Official (ISC)² CISSP Training & Certification Programme in Israel, supporting the ongoing development of information & cyber security professionals through education, training, certification & membership. (ISC)² and See Security Technologies have agreed to model CISSP training in two formats:

- 1) CISSP Bootcamp - 40 hours of study with official (ISC)² courseware and instructors, specifically for experienced cyber security professionals.
- 2) CISO Programme - 288 hours of study for professionals who wish to advance their knowledge and increase proficiency. The course includes official (ISC)² courseware and instructors.

The above programmes require authorization of use by (ISC)² and a fee per delegate. (ISC)² does not allow the use of its Official IP/materials in any unapproved manner.

See Security Technologies will continue to develop a network of experienced subject matter experts who will be approved as (ISC)² Authorized Instructors to deliver Official (ISC)² CISSP Training to their growing portfolio of B2C, B2B & B2G client base.

If you require any further information in support of See Security Technologies please do not hesitate to contact me directly.

Yours sincerely,

Tony Deslandes
Channel Account Executive
EMEA – Regional Operations
